Usage Instructions

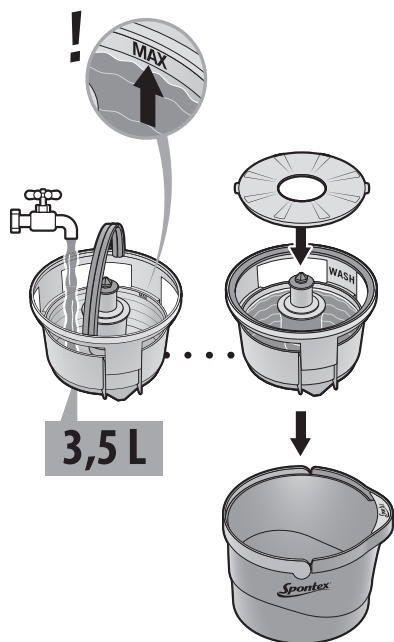

BOX CONTENTS

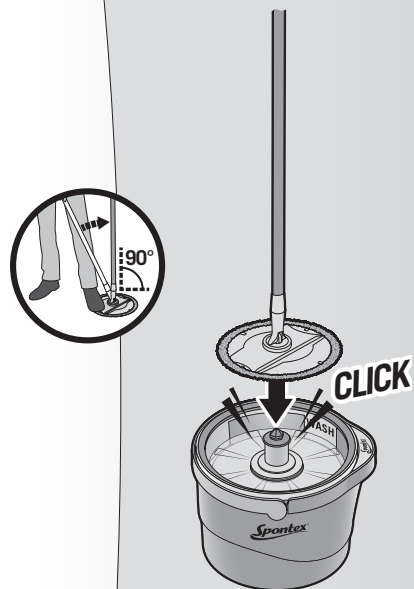

MOP ASSEMBLY

1

Fill the clean water compartment with just water or add your usual detergent (follow the detergent's dosage instructions) up to the MAX level, pop on the lid and then put it back in the main bucket.

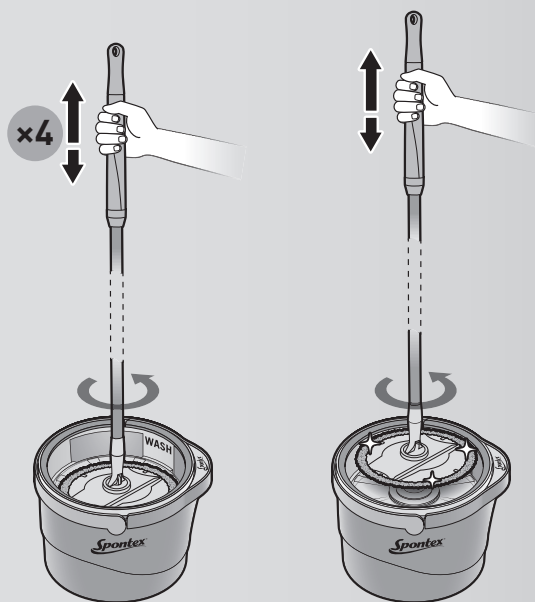

2

Place the mop on the pump and push down the handle until you hear the click.

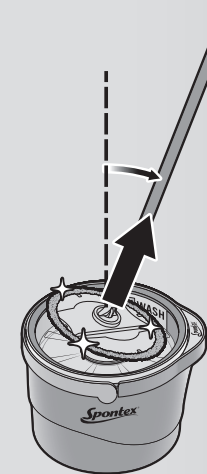

3

RINSE ... AUTO ... WRING

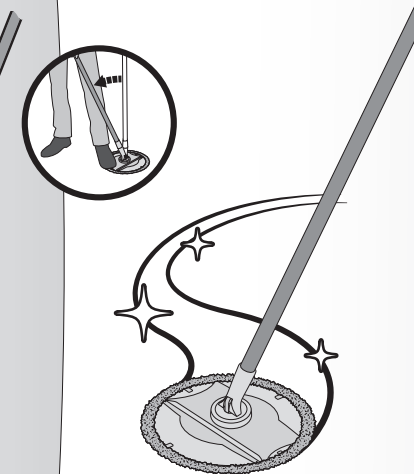

Push down and pull up the handle to dampen or rinse the mop. When the mop comes up automatically, wring as required repeating the same gesture.

4

Tilt the mop slightly to unplug it.

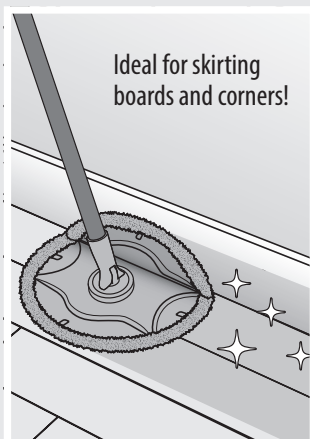

5

Pull the handle towards you ready to mop!

AQUA REVOLUTION system
